

**WARNING: This Message Is For Six-Figure Earners Who Know That A High Income Alone Won't Protect Their Family's Future**

**Making 6- Figures But Still Struggling?**

**Here's The 3-Hour 7-Pillar Framework To Build Generational Wealth That Survives Job Losses, Market Crashes, and Unexpected Life Events**

The Shocking Truth About Why Most Six-Figure Earners Will Never Build Real Wealth - And The 7-Pillar System To Make Sure You Do

## From The Desk of Alex Mwangi

*Financial Fitness Consultant and Wealth Protection Specialist*

**Live Session: Wednesday, March 26th**

**6:00 PM - 9:00 PM**

### **Dear Success-Minded Professional,**

If you're earning a six-figure income but lying awake at night **wondering why you don't feel financially secure...**

If you're growing increasingly uncomfortable with how **exposed** your wealth would be if the market crashed tomorrow...

If you're starting to realize that your "good income" **won't protect your family if your business fails or**

## **your career takes a hit...**

And if you're worried that despite your impressive earnings, **you're not building the kind of generational wealth that truly successful people have...**

Then you're not alone.

I recently met **James, a marketing executive earning Ksh 300,000 (\$2,500) monthly** in Nairobi.

On paper, he looked successful – **nice car, good address, respectable job...**

But beneath the surface, he was hiding a **dark secret** that kept him awake at night...

Despite his impressive salary, he was:

- 👉 Drowning in lifestyle debt
- 👉 Had ZERO savings
- 👉 Constantly stressed about money
- 👉 One emergency away from a financial disaster
- 👉 Losing sleep over his family's future

**And James isn't the exception- he's the rule.**

## **Here's More Shocking Truth About Six-Figure Earners In Kenya**

**7 OUT OF 10**  
Have no emergency fund

**65%** are living paycheck to paycheck

**Most** will need to work well into their 60s

**80%** are one emergency away from financial disaster

**But here's what really keeping you up at night**

- The constant pressure of "**Black Tax**" eating away at your income
- The fear that your children might not get the quality education they deserve
- The gnawing worry that you're not investing enough for retirement
- The embarrassment of earning "good money" but having nothing to show for it

### **So Pay Close Attention:**

Here's what no financial advisor has the guts to tell you:

*Making six figures means nothing if you don't have the right wealth protection system in place.*

Why?

Because earning a high income is exactly what makes you MOST vulnerable when things go wrong.

Think about it...

- The more you earn, the more you have to lose.
- The bigger your lifestyle, the harder you'll fall.
- The more "successful" you look, the fewer people think you need help.

The real issue isn't how much money you make—it's how much wealth you keep and grow.

And without the right wealth protection system, even the highest earners remain trapped in financial insecurity.

**In a nutshell, you need a bulletproof system that:**

- ✓ Protects your wealth even if your income disappears overnight
- ✓ Keeps working even if the market crashes or property prices plummet
- ✓ Builds generational wealth that outlasts your earning years
- ✓ Creates true financial freedom, not just a good monthly paycheck

## **You Might Be Wondering Who I am And Why I'm Telling You All This**

I'm **Alex Mwangi**, a **Certified Financial Fitness Consultant (CPA, MSc Finance)** and **Wealth Protection Strategist**.

Over the past **11 years**, I have **trained over 500 professionals in wealth creation** and **impact over 20,000 people daily through online financial literacy lessons**.
